Designing

### EDUCATION

Birmingham City University - Birmingham, UK

- Master of User Experience Design
- 2022 - present

University of Ilorin - Ilorin, Nigeria

- Bachelor of Computer Science
- 2014 - 2018

### EXPERIENCE

#### Software Developer

Emjay Solutions, Lagos, NIG, 2019–2022

- Migrated the company's web app from Pure VanillaJS to React.js for greater dynamism and a smoother UI.
- Tested applications for bugs/errors and developed software fixes.
- Built a currency converter while utilising rest API to get live conversion rates using ReactJS.
- Discuss user needs and software solutions with organisations.
- Collaborated with software and hardware teams to bring products from conception to completion.

#### Frontend Developer(Remote)

UNPLUGDD, 2020–2021

- Developed a user-friendly and lightning-fast user interface.
- Helped backend engineers understand frontend components, their purpose, and how to integrate them best.
- I helped integrate a messaging system that lets people chat while watching live events to make it more entertaining and realistic.
- I worked with the team to build/integrate an automated 24/7 live support system that provides lists of complaints for users to choose from, making it easier and faster to reach out and reducing admin workload.

#### Freelance FullStack Developer

Various, 2018–2021

- Collaborated with developers from different parts of the world to assist them fix bugs and complete coding tasks/challenges.
- Mentored and provided guidance for new and aspiring web developers.
- Participated in developer-oriented social events to network with peers from across the world, share insights on how to improve the user experience, and learn about the latest trends in Web development.
